---

On November 7, 1990, the Public Service Commission of South Carolina (the Commission) received a request from Berkeley Electric Cooperative, Inc. (the Complainant) that a hearing be set in the above-captioned matter. The Complainant alleges that the Respondent is in violation of South Carolina law in that he resells electrical energy purchased by him from the Complainant while Respondent is not a licensed retail electrical energy utility and, further, that he resells electrical energy he purchases from the Complainant at rates that have not been approved by the Commission.

The Commission finds that a hearing should be set in this matter and the parties will receive notice of the hearing date in the near future.

BY ORDER OF THE COMMISSION:

  
Chairman

ATTEST:

  
Executive Director

(SEAL)
